

Anti-doping annual summary of activities 2021/22

Clean Sport Education Strategy and Implementation Plan

Wales Lacrosse has created a Clean Sport Education Strategy which details the work and education we intend to do in regards to anti-doping moving forwards.

Education

All athletes, coaches, support staff and parents have been sent information on the following: changes to the WADA Prohibited List for 2022, the full Prohibited List, Global DRO, supplements, TUEs, Whereabouts, and other general anti-doping information. A plan for the next year to expand on this education including pre major games education for athletes, education outreach at events, feedback for the education plus how it is monitored and evaluated is being worked upon.

Compliance

Wales Lacrosse has provided evidence against all possible parts of the UKAD Assurance Framework requirements and is awaiting approval by UKAD.

Testing
