

WALES LACROSSE

Covid Update 20th July 2020

The latest COVID guidelines have recently been released by the Welsh Government. These guidelines currently state the following but are subject to change at anytime:

Organised outdoor activities, including team sports and classes, involving up to 30 people are allowed to take place.

The activity must be outdoors and organised by a business, a public body or charitable institution, a club, or the national governing body of sport or other activity.

The person organising the activity needs to have carried out an appropriate risk assessment.

This now means that we have the potential to organise training sessions with up to 30 people including coaches, managers **within Wales**. We would however advise, where possible, that the maximum number of 30 is broken down into smaller pods.

Anybody who is looking to arrange any lacrosse activities must fill in the **Intent to Train** form and return it plus the **Training Register** to Wales Lacrosse at the following email address:

covid19@welshlacrosse.co.uk

Managers/Coaches are kindly reminded that this is a **MANDATORY** requirement for each session for the foreseeable future. The **Training Register** must be returned **prior** to the training taking place. This will need to happen for every session. Please beware that it is the manager/coaches responsibility to ensure all guidance regarding social distancing and approved practices are being adhered to throughout the training session.

Cymdeithas Chwaraeon Cymru

Anyone not willing to adhere to these guidelines must be removed from the session immediately.

Please do not assume that previously used training venues are still capable of providing for our needs in the current climate. It is our responsibility that the current Welsh Government advice is adhered to at all times. Should you have any questions do not hesitate to contact us on the above email address.

NB: Any training session that takes place in England must comply with the England Lacrosse Rules.
